

INFORMED CONSENT FORM

INFORMED CONSENT FORM

My name is Daniel, and I am a student at California State University, Chico. You are invited to participate in a research study to evaluate the usability of the BlueConnect application.

If you volunteer, you will be asked to complete a series of tasks using the BlueConnect application, which will take about 30 minutes.

If you agree to participate you can stop at any time. This study may expose you to minor risks, but they are not expected to be any greater than risks you experience in daily life. The benefit to this research is to improve the experience of the users of BlueConnect and to further the application's layout, functionality, and understandability.

The findings for this usability test will be written in a report to further improve the BlueConnect application. I am not collecting information that can identify you. I will destroy the data at the end of this semester.

If you have any questions about the research, please contact me at drogers5@csuchico.edu, or kbuffardi@csuchico.edu.

Your participation implies that you have read and understand this information and that you may stop at any time without penalty.
